

# Get the Real Dirt on Biosolids!

compliments of Ellen Page

## Nova Scotia Soil Conference

Protecting our Environment, Food and Health

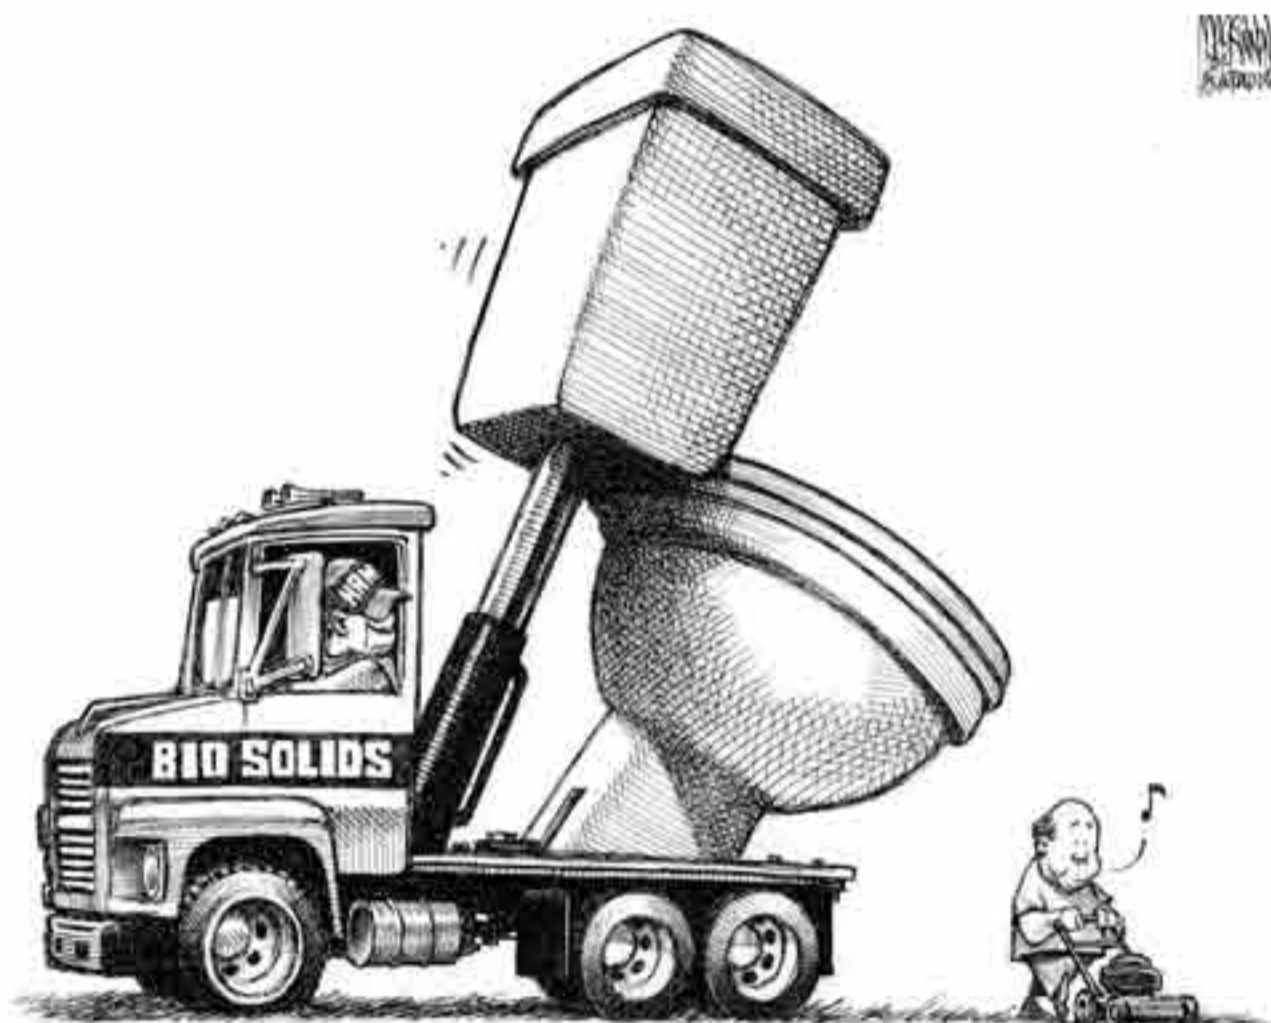

**March 13th** starting at **9 am** at **Pier 21**

It begins with healthy soil.  
Every living creature needs it!

**“Dirt”** this film shows the importance of healthy soils - “this resource is more valuable than gold” .

**“Sludge- Diet”** this film shows the disastrous consequences of the Sludge- Diet and the need for the Government to ban it's use on land in Nova Scotia.

Are HRM biosolids safe to use as a  
“fertilizer” on our parks and farms?

### Guest Speakers and Panelists

**Dr David Lewis** - Retired EPA Microbiologist - forced out of EPA for telling the truth.  
"Common sense versus documented cases"

**Scott Travers** - President and COO of Minas Basin Pulp and Power - “Turning A Problem Into An Opportunity” will discuss the potential in Nova Scotia to extract safe and efficient energy from biosolids.

**Logie Cassells** - Managing Director of LaHave Forests, creating North America's 'Next Generational' Organic Centre for Agriculture and Forestry in Nova Scotia.  
"Making Soil Come Alive."

### Master of Ceremonies - **Bill Carr**

**Dr. Jason Hofman** - President, Foodweb Canada East. Background in plant physiology, biochemistry, molecular genetics, composting and soil ecology.

**Jim Poushinsky** - Chair of Ottawa Citizens Against Pollution by Sewage, and assisted with the Ottawa interviews in Sludge Diet.

**Dr. Av Singh** - Serves as the Organic & Rural Infrastructure Specialist with AgraPoint in Nova Scotia working with organic and small-scale farmers .

**Dr. Marilyn Cameron** - Veterinarian, Chair of the Biosolids & Waste Water Caucus with the Nova Scotia Environmental Network
